

These clinical study results are supplied for informational purposes only in the interests of scientific disclosure. They should not be construed as medical advice and are not intended to substitute for the FDA-approved package insert or other approved labeling. Amgen will make good faith efforts to include accurate and up-to-date information on this website. However, Amgen can make no warranties or representations of any kind as to the current status or completeness of the information contained herein. Amgen shall not be liable for any damages, including, without limitation, direct, incidental, consequential, indirect or punitive damages, arising out of access to, use of, or inability to access or use information posted by Amgen on this web site, or any errors or omissions in the content thereof.

Nothing in Amgen's posting of information is intended to be viewed as any claim for any particular marketed or unmarketed product. Some clinical studies may include information not contained in the approved product package insert. Please refer to the full prescribing information for additional information.
